Personal Summary

Full Stack Developer with 3+ years of experience building scalable web applications and PWAs using React.js, Next.js, .NET, and AWS Serverless. Skilled in full-stack development, cloud deployments, troubleshooting, and team leadership. Leverages AI tools like Claude and ChatGPT to improve development efficiency, code quality, and problem-solving.

Professional Experience

Software Engineer | Activasia Inc. | Hybrid | Oranbo, Pasig City | May 15, 2025 – Present

- Developed and maintained production-ready frontend, backend, and database systems using React.js, Next.js, Mantine UI, and AWS Serverless.
- Managed AWS infrastructure, production deployments, Git workflows, and environment configurations across multiple environments.
- Designed and delivered end-to-end features and system enhancements aligned with business requirements, from development to production.
- Integrated AI-powered capabilities into applications to automate workflows, enhance system functionality, and improve operational efficiency.
- Resolved production issues, optimized application performance, refactored legacy code, and contributed to system architecture improvements.
- Collaborated with cross-functional teams and mentored junior developers through code reviews, technical guidance, and knowledge sharing.

Full Stack Developer | Unlimited network of opportunities | Hybrid | West Avenue, Quezon City | September 18, 2024 – May 14, 2025

- Designed and developed responsive landing pages and intuitive user interfaces for customer-facing and internal applications, focusing on usability and responsive design.
- Developed new systems and features while enhancing existing applications to improve performance, usability, and conversion rates.
- Investigated, debugged, and resolved application issues to improve system reliability, compatibility, and overall performance.
- Collaborated with management, QA, business analysts, and cross-functional teams to prioritize development tasks, validate features, and deliver solutions aligned with business requirements.

Junior Full Stack Developer | Simplified Business Consultancy | Onsite | Feria, Quezon City | August 1, 2023 – September 3, 2024

- Developed a full-stack Progressive Web Application (PWA) using Blazor WebAssembly and .NET 8, implementing secure authentication and the MVVM architecture.
- Designed a responsive, scalable application, ensuring quality through testing, debugging, and modern development best practices.
- Collaborated with clients to present features, gather feedback, and deliver solutions aligned with business requirements.
- Led project coordination, documentation, and team collaboration using GitHub and Notion to ensure successful project delivery.

Technical Skills

Frontend: HTML, CSS, JS, TypeScript, Bootstrap, Tailwind, ReactJS, NextJS
Backend: C#, PHP, JS, .NET, NodeJS, Laravel, Serverless Framework
Cloud: AWS Amazon
Database: MSSQL Server, MySQL
Tools: GIT, Postman, Figma, Github, ClaudeAI, ChatGPT, Codex, Gemini

Education

Bachelor of Science in Information Technology | ACLC College in Apalit | Sulipan, Apalit Pampanga | 2020 – 2025
.NET/Animation | SHS in Apalit Stand Alone | San juan, Apalit, Pampanga | 2018 – 2020

Certificates

- JS and NodeJS Certificate | Top 25% | Testdome | June 6, 2026
- ReactJS | Top 10% | Testdome | June 6, 2026
- Typescript | Top 25% | Testdome | June 6, 2026
- SQL | Top 25% | Testdome | June 6, 2026
- JS | Top 10% | Testdome | June 6, 2026
